

TECHNICAL INFORMATION

sole (cold)

8844 BLACK | 35 > 48

COMPOSITION

Upper	Microfibre + PU			
Front reinforcement	Injected PU			
Lining	3D mesh			
Тое сар	Steel			
Insole	Mesh over PU foam. Removable.			
Anti-puncture sole	Stainless steel			
Sole	Two-density polyurethane			
Weight size 42*	600 g * Weight per shoe			

**	Coefficient obtained size 42	Front		Heel	
		Standard	Parade	Standard	Parade
	Ceramic floor / Nals (soap solution)	0,36	0,36	0,31	0,34
	SR Ceramic floor + Glycerine	0,22	0,23	0,19	0,26

SAFETY TABLE

Sole insulation (heat)

Electrostatic dissipation

TECHNICAL INFORMATION

ENVIRONMENTAL FEATURES

At Parade, we carry out a life cycle analysis to measure the environmental impact of each of our models: from the extraction of raw materials, manufacturing, use, logistics, right through to the end of the product's life. Our environmental impact calculators, developed in-house using ADEME's EMPREINTE® database, have been certified by AFNOR for textiles and validated by the Pôle Eco-conception* for footwear.

* The Pôle Eco-conception is the French national centre for eco-design and life-cycle performance. Its expertise is recognised nationally and internationally by ADEME, the French Ministry of the Environment, AFNOR, ISO and the UN-environment.

Stitching country: China / Assembly country: China / Finishing country: China

- DRS SYSTEM 2 technology for shock wave dissipation
- BE-FLEX 2.0 technology for a flexible sole and maximum comfort
- VPS SYSTEM technology: supports the arch of the foot
- 3D MESH lining

- ESD
- Stitched front reinforcement
- Steel toe
- Steel plate
